

CRESCENT™ TANK MFG.

THE SEPTAGE VACUUM EXPERTS

Crescent Tank Mfg has finally given you a solution to the requirement of having a delivery vehicle and a service vehicle. **"THE ONLY" Patented All-In-One Rectangular Vacuum Tank** (US Patent # 6598242B1)

The tank has a low profile design for a lower center of gravity. The liquid waste is held inside the rectangular "Flat Bed" tank with a separate fresh water poly tank. The rectangular tank allows you to use the entire bed for its intended use, hauling portable restrooms, hand wash stations, additional water tanks, portable fencing and any other equipment needed for your job.

The "RECTANGULAR" Septage vacuum tank is a revolutionary tank design and is unsurpassed in the industry. With 18 years tried & proven the rectangular tank will increase productivity and service response time along with decreasing insurance costs, fuel expenses and labor costs. Now that it's available in many sizes, it is the COMPLETE solution for any sanitation service business.

The Crescent Tank name is on more than 400 systems working in demanding environments while continuing to enhance profitability through utilization of state of the art engineering practices. It is through engineering and bottom line craftsmanship that Crescent has earned the reputation of being "THE ONLY" rectangle tank provider.
